

FAQ relative to Summer 2020 mandatory fee calculations

1) Why was the student center fee not adjusted with no one will be able to use the student center for summer semester?

The student center fee covers the bond debt, renewal and replacement, and utilities for the building. These are fixed institutional costs. The students and the University committed to these payments when the funds were borrowed to construct the building.

2) I want to inquire about a refund for additional printing on-campus.

Refunds for these charges were processed on May 08, 2020
